The Hyperloop Pod Competition is a competition sponsored by SpaceX in 2015-2018 where a number of student and non-student teams are participating to design and for some, build a subscale prototype transport vehicle to demonstrate technical feasibility of various aspects of the Hyperloop concept. The competitions have been open to participants globally, although all competitions and ...

In engineering, physics and chemistry, the study of transport phenomena concerns the exchange of mass, energy, charge, momentum and angular momentum between observed and studied systems. While it draws from fields as diverse as continuum mechanics and thermodynamics, it places a heavy emphasis on the commonalities between the topics covered. Mass, momentum, and heat transport all share a very ...
