Getting Started with Kudu Book Description: Fast data ingestion, serving, and analytics in the Hadoop ecosystem have forced developers and architects to choose solutions using the least common denominator—either fast analytics at the cost of slow data ingestion or fast data ingestion at the cost of slow analytics. There is an answer to this problem

Here's a simple example configuration for decrypting a PDF: Details on Using Certificates. There are several ways to load certificates with the PDF Pipeline Components. The *Cert properties (e.g. EncryptionCert, SignerCert, etc) are specified via a certificate browser. These properties can only hold a single Certificate; however, the components also support loading any number of certificates using a set of certificate parameters.
