The Global Logistics Excellence Awards will be a platform that will put a spotlight on the heroes of the sector who have risen in spite of challenges whether managing logistics operations within the enterprise or as 3PL players. The Award Show will identify shortlist and bring to the forefront individuals, organizations and projects that have created excellence in the domain of logistics.

Global supply-chain finance refers to the set of solutions available for financing specific goods and/or products as they move from origin to destination along the supply chain. It is related to a quickly growing use of a battery of technologies and financial business practices that allow for discounting of Accounts Receivable and financing of companies' confirmed Accounts Payable.

Logistics is generally the detailed organization and implementation of a complex operation. In a general business sense, logistics is the management of the flow of things between the point of origin and the point of consumption in order to meet requirements of customers or corporations. The resources managed in logistics can include physical items such as food, materials, animals, equipment ...
