Psychological testing is the administration of psychological tests, which are designed to be "an objective and standardized measure of a sample of behavior". The term sample of behavior refers to an individual's performance on tasks that have usually been prescribed beforehand. The samples of behavior that make up a paper-and-pencil test, the most common type of test, are a series of items.

The human resource planning is very important and necessary part of an organization. It plays important part in the long run success of an organization and there are several methods which are adopted by different organizations for selection of new employees so that the long term objectives of an ...

Important Factors In Selection Methods - UK Essays

Definition. The term problem solving means slightly different things depending on the discipline. For instance, it is a mental process in psychology and a computerized process in computer science. There are two different types of problems, ill-defined and well-defined: different approaches are used for each.
