However, the term "feature" is also commonly used to mean a capability of a system, application or

component. Also, in some domains and/or applications no distinction is made between "feature" and the corresponding real-world phenomena. To avoid confusion, we adopt the term "Spatial Thing" throughout the remainder of this best practice document.

Spatial Data on the Web Best Practices

Digital asset management (DAM) software catalogues and maintains repositories of media files such as photos, audio files, and video files. By applying metadata taxonomies to assets, users are able to group, search, and distribute files.
