Development economics is a branch of economics which deals with economic aspects of the development process in low income countries. Its focus is not only on methods of promoting economic development, economic growth and structural change but also on improving the potential for the mass of the population, for example, through health, education and workplace conditions, whether through public ...

1. Introduction. In this review article, we look at adaptation to climate change through the lens of development economics. Since the development literature has firmly established the role of weather risk as a source of income volatility for the poor, and climate change is expected to increase this risk, we review the range of risk-coping mechanisms available to poorer households, with a focus ...

Out of the three studies, London et al.'s (2010) constraint framework is the most elaborate. He differentiates between productivity/value creation constraints and transactional/value capture constraints. While the former occur within the boundaries of the firm and mostly concern its productivity and/or value creation, the latter emerge outside the boundaries of the firm and affect its ...

ABSTRACT. The sociological logic of the study of international relations is based on the recognition of the asymmetrical relations of power, from his performing, like realism and neorealism theories arise from there, and this tradition coincides with the development of visions of the study of gender and feminism, where the epistemological principle are similarly asymmetric relations between ...
